Body Language, Behavior, and Problem Solving Skills Workshop *Hands-On at St. Hubert's Animal Welfare Center*

"The instructors were so knowledgeable and helpful that they made me feel more confident and capable, too. Thank you so much for the experience. I will never forget it and am grateful to come away with such valuable information." - Jacqui P., Graduate, Fall 2016.

- **Intensive 1-week, in-person workshop, training dogs every day**
- **Earn a certificate** to showcase your skills
- **On-site at a beautiful modern training facility and shelter**
- **Complete your workshop as a standalone achievement or in combination** with any full-length CATCH course
- **Totally immersive hands-on training** where we provide many different dogs for you to practice with
- **You will be coached and evaluated by expert trainers** to build your skills in a fun, supportive setting
- **Workshops are limited to 12 total slots** for a personalized, intimate learning experience

Get ready to eat, sleep, and breathe dogs. If you are looking for an in-depth learning experience alongside a world-class team of trainers, then the hands-on workshops are for you. This is a fun, challenging, and comprehensive week of training with a chance to develop your skills and have them evaluated to earn a certificate. Upon completion of your week's work, you will receive a frameable diploma highlighting your studies and accomplishments. Every day we will be doing hands-on training work with a variety of dogs at our modern training facilities and shelter campuses. This will make a huge difference in your skills *and* in the lives of the shelter dogs you will be helping by providing needed enrichment and manners training.

Graduate Goals and Achievements

Proficient graduates of this workshop will have greatly enhanced their skills in canine communication, behavior analysis, problem solving, and professional handling. The skills and tools you gain can be applied in a range of ways in the dog industry including: private lessons, group classes, behavior evaluations, and dog care services from walking to board-and-train. Graduates will also be able to make a positive impact in their local dog community or business with the ability to work with shelter dogs, day care dogs, and of course their own dogs – on a higher level than ever before. Expect to see a marked increase in your ability to communicate with dogs and to get faster, better results in all your training sessions. For maximum results, students will benefit from having prior basic training experience or taking our Professional Training Skills workshop, however these are not a requirement for taking this workshop. You may join us as a beginner with a passionate interest to learn these topics and practice these skills.

Established trainers who are seeking to round out their knowledge, sharpen their techniques, or gain exposure to new ideas, will find this to be a very productive week. The focus on building and practicing a strong technical foundation for cross-species communication, behavior analysis and training will make a noticeable difference in your skill set that will impress clients, colleagues, and the dogs you work with.

In summary, this workshop is ideal for dog lovers and professionals who want:

- **Hands-on study in how to “speak dog” - observing and analyzing body language** in real time with the goal of becoming fluent so you can enhance your skills in behavior evaluation, safety, and decision-making for training plans.
- **A Certificate** highlighting that you have been coached and evaluated by a Certified Mentor Trainer
- **A very productive week of running play groups hands-on for social behavior analysis and handling skills with in-person coaching** from accomplished professionals
- **To close gaps in your knowledge and refine/refresh your skill set** by analyzing behavior in dogs of all sizes and personalities
- **To learn innovative, professional, science-based behavior problem-solving techniques** with force-free, positive reinforcement methods
- **To enrich the lives of shelter dogs** and help their chances of finding a great home

Workshop dates are listed below in the Dates and Details section.

Key Topics of Study

- **Observing dog behavior with a keen eye for details and then being able to: interpret what you see, analyze behavior, and make effective predictions.** Facial expressions, body movement, intentions and emotions will all be covered.
- **Handling dogs on and off leash while making fast decisions based on the behaviors you are seeing.** We will study dog-to-dog behavior from greetings to off-leash interactions. You will learn how to tell the difference between play and conflict and make good decisions for safety and progressive socialization.
- **Understanding how dogs interpret human body language (yours),** and learning how to move like a professional handler with both confident and fearful dogs. This makes a huge difference in both safety and effective leadership with dogs and clients alike.
- **Taking a professional and systematic approach to behavior problem solving.** How to look at all factors that could be considered causes or triggers, how to apply management, how to apply behavior modification.
- **Writing behavior problem solving plans for actual cases in the shelter. Hands-on application of your plan** with follow-through on management and behavior modification techniques.
- **Understanding when and how you will want to use associative learning and behavior-consequence learning as part of your plan,** all using force-free, reward based methodology.

Nancy doing a beautiful job on the long line, training a recall with Chocko. "The program was well planned, written and executed. Thanks for all your help."

Lisa teaching Gillie how to "spin" while Pia Silvani coaches. "The program was incredibly professionally run. I learned more than I ever dreamed I could/would."

Expert Coaching

We'd like to welcome you to the world's most fascinating classroom, where lead instructors like David Muriello, CPDT-KA, CCDT (CATCH Founder and seven-year Director of Training for the biggest dog care business in New York City) and Pia Silvani, CPDT-KA, CCBC (named one of the top 100 best and brightest people who changed the world of dogs by *Bark Magazine*) and Ferdie Yau, CPDT-KA (wildlife biologist and animal trainer who has trained polar bears, sea lions, and primates in addition to dogs)... will guide you through a week of intense skill-building and knowledge discovery. Upon completion of this workshop, you will earn a certificate and be ready to make an impact on the dog world with an impressive skill set to put behind your passion.

Dates and Details

- **Who:** Each session is limited to 12 students, making this an intimate and personalized learning experience. Dog lovers, aspiring trainers, and established professionals from all over the world are welcome.
- **What:** Modern, science-based, force-free training with positive reinforcement techniques that are used to quickly build reliable behaviors from basic to advanced obedience.
- **Where:** On-site at the brand new St. Hubert's Animal Welfare Center in Madison, New Jersey (45 minutes from New York City). Housing opportunities, including student dorms with wifi, are available within 5 minutes of the classroom site.
- **When:** Mon – Fri, 9am - 5pm
 - **April 24 - 28, 2017 | Madison, NJ - SOLD OUT - Ask about the waiting list.**
 - **August 14 - 18, 2017 | Madison, NJ - FOUR Spots Left - Get in touch!**
- **Looking to start right away?** Ask us about specially priced packages to start a program in your hometown *before* your on-campus experience begins.
- **CEUs:** If you are seeking to earn continuing education units for certified trainers with CPDT-KA or KSA, contact Student Support so we can arrange that for you.

Chrislyn collaborating with David Muriello on a training plan for Gunner. He is excited to start working!

"Thank you so much for having me in your class and allowing me to work with such amazing animals. I'd do it all over again if I could."
- Chrislyn R., Graduate

Tuition

- Enrollment is currently limited to 12 students.
- \$1,990 includes all course materials and equipment needed. We will provide the dogs, study guide, training tools, demonstrations, and coaching. Just bring your passion to learn!
- CATCH will also provide plenty of power snacks all day
- Payment plans are available during the pre-enrollment period. Ask us for details.
- Housing: Private dorm rooms are available with wireless internet, comfortable study lounges, and a shared kitchen for only \$44 per night. Ask us about the many local lodging options.

Like all CATCH courses, the 1-week on-campus program is designed to be an intensive, but supportive and fun learning experience that's easy for everyone to love – the students, the instructors, and the dogs.

Self-Paced Courses in Your Own Town

In addition to the hands-on workshops, CATCH offers the **Master Class and other self-paced courses that can be completed in your own town, on your own schedule.** You can graduate from these courses with a Certified Dog Trainer title or a certificate from our Basics Pro or Core Skills programs. All programs can be combined with the Dog Trainer Workshops described in this catalog for a fantastic in-depth learning experience.

Contact

We are looking forward to hearing your goals and helping you choose which course is best for you. Our Student Support Team is here to answer all your questions.

Call to ask us about course details, payment plans and the Ready to Roll Discount.

Enrollment Requirements

All enrolled students must be over 18 years. Instruction for the program will be provided in English therefore all enrolled students must have a sound working knowledge of written and spoken English. All enrolled students must possess a high school diploma, GED, high school equivalency or pass the Ability to Benefit Test. All enrolled students must be physically competent to perform dog training activities as outlined below. CATCH respects and welcomes students with prior education in dog training and behavior, but does not require this prior to enrollment.

Physical Requirements

Use of Hands

- Student must be able to:
 - Grasp and hold a leash, demonstrating the ability to control small, medium, and large dogs.
 - Use both hands for repetitive action such as tightly gripping and guiding a leash.
- Fine motor skills in both hands are required for repetitive actions such as attaching and detaching collars and leashes, as well as delivering food rewards to the dogs during training.
- Students must have good hand-eye coordination.

Use of Legs and Feet

- Standing and walking are frequent activities every day throughout the workshop.
- Student must be able to:
 - Walk at a brisk pace during certain training exercises and when leading dogs to and from training areas.
 - Move feet forwards and backwards during training exercises.
 - Change direction abruptly during certain training and handling exercises.
 - Maintain balance while working dogs and simultaneously watching the dog's behavioral responses.

Balance and Range of Motion

- Student must have:
 - Good range of motion in joints; particularly in the back, wrists, elbows, and knees.
 - Ability to balance when interacting with dogs; for example, to be able to stay on their feet while a strong dog may be pulling on leash, or when a dog jumps up on them.
 - Ability to bend, kneel, or sit on the floor, and return to standing from any of those positions.
- Student must be comfortable and competent in physically restraining small, medium, and large dogs.

Visual Requirements and Hearing Requirements

- Glasses and/or contacts are permitted.
- Student must be able to:
 - Visually observe people and dogs up to 100 feet away.
 - See the body language of the dog in front of him/her.
 - Hear and recognize dog vocalizations both soft and loud.
 - Hear normal speech within regular speaking range as well as loud speech from up to 100 feet away and in environments such as an outdoor training space or busy indoor classroom.

Learning Environments

- Students may be required to walk on uneven surfaces such as grassy play areas for dogs, hillsides, curbs or stairs.
- Training may at times take place outdoors in chilly or wet weather.
- Students may be asked to cross parking lots or streets thus the utmost care must be taken with yourself and animals.
- Noise: canine vocalizations and barking are common in shelters and training classes.
- Odors: animal odors are common in shelters.
- Exposure to the following in shelters and training rings:
 - Cleaning agents and disinfectants commonly used for animal care and training
 - Dogs may defecate or urinate during walks, training, or other.
 - Animal dander and hair

Hands-On Practice

Experience has shown us that students make tremendous progress from their first day to the last. This in large part due to the extensive coaching that all students receive throughout the workshop. You can expect to get real-time feedback on your ideas and your hands-on skills during all the following exercises and more:

- Handling dogs for on-leash greetings and in off-leash play groups
- Field studies for observing and interpreting body language (we will also analyze videos of what we observed live to study what we may have missed in real time)
- Behavior problem-solving sessions: developing management and training plans on your own and during group discussions
- Training sessions: putting solutions into action by teaching the dogs new behaviors and new responses to problem-behavior triggers

Course Materials and Equipment

All enrolled students will receive the following items which are yours to keep:

- CATCH Workshop Study Guide with detailed text and photos for the topics we will study
- Access to the CATCH Student Center online with training demo videos available to watch before and during the course
- Treat pouch and clicker (Clickers will not be our main focus, but we will teach you how to use them effectively as well as the pros and cons of this tool.)
- CATCH Professional Trainer's Polo Shirt

THANK YOU

Everyone on the CATCH team thanks you for reading this Dog Trainer Workshops catalog and for entrusting us to shape your skills by participating in our Professional Dog Trainer Courses. If you are interested in the complete CATCH course catalog with all our programs listed, just let us know and we'll be happy to send it along.

We'll see you soon, training dogs!
